

Big Winners of the Ciceron Secondary School National Mathematics Competition for 2021

Last year the Ciceron Secondary School engaged in several activities for Mathematics Month under the theme “Mathematics for a Better World.” Activities included: Mathematics challenge, quizzes, dress down, poster in house competition and a national Mathematics Competition. The National Mathematics Competition spear headed by the Ciceron Secondary School was opened to infant, primary and Secondary Schools Island wide. The competition was based on creating your own video, song, poem, or poster based on the theme: “Mathematics for a Better World; we are practicing in the virtual world.” The competition served to change the mindset of students about the subject especially in this tough Covid pandemic times. Mathematics should not be stuck to the four walls of the classroom but can be done virtually. This was the sentiments of Mr. Dwayne Lubin, the head of the Mathematics Department at the Ciceron Secondary School. The process of encouraging students to practise Mathematics not just physically in the classroom but virtually any and everywhere. This is a stepping stone in improving Mathematics. He also emphasized that students should not depend solely on teachers to pass the subject but they should practise with or without a teacher. Mr. Lubin would like to

give a big thank you to all his sponsors; Food Centre, Carro's Kitchen, Nathaniel's Boutique, Auntie Pam's Boutique, Nellie's World, Essence Boutique, Wendy's Nail Designs, St. Lucia Teacher's Credit Union, Evo's Boutique, St Lucia Distillers, Carilec, Computer World, Citizens Jewelers, Bank of Saint Lucia, CIBC First Caribbean International Bank, Windward Island Gases and Lubstime.com.
